Northern communities, global communities: a translocal challenge
Instructions for the homework/essays

Fri. 31th of Nov. (12 am-4 pm)

Natures of the North: Comparing Finland and Manitoba (Matthew Sawatzky)

Post-natural environment (denaturalizing nature)
Picturing the interests of the first nations, environmentalists, hunters, cottage owners, and the forest sector
Multiethnicity in environmental co-management

There will be no exam after the lectures but, instead, a diary (based on the lectures) is to be written by each of the students. In addition, an essay on selected written material - introduced on Thursday - is demanded from those extending their credit points from two to four. The second phase (up to eight credit points) is available only for HG students and Finnish geography students; it contains an individual home work based on a few books picked up from a book list given during the course.

Erityisalan voi suorittaa osallistumalla luentojaksoon 'Modernisation and Politics of Nature in Northern Europe' (2 op). Luento on englanninkielinen ja samalla osa Human Geography -opintoja, mutta maantieteen syventäviä opintoja suomen kielellä opiskelevien on mahdollista kirjoittaa luentoan liittyvät kirjallisuustehtävät (luentopäiväkirja ja valittuun artikkeliin tutustuminen+artikkeliessee/2 op) suomeksi. Muilta osin (4 op) erityisala suoritetaan kirjallisuuteen tutustumalla (ja kirjallisuusesseen muodossa), joka sovitaan erikseen ohjaajan kanssa. Kääntöpuolella lista kirjallisuudesta, josta voi valita kirjallisuusesseen taustamateriaalin.
